

# Making Custom Clone Stamp Brushes

1. Click the **Clone Stamp**

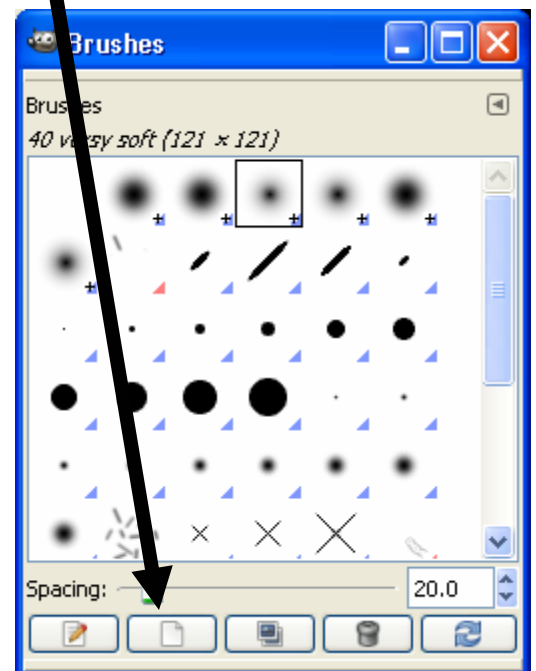

2. In the CLONE Dialog Box below click the BRUSH image.

3. Click the **PAINT BRUSH** in the lower right Corner.

4. Click on the **NEW** button on the bottom of the window

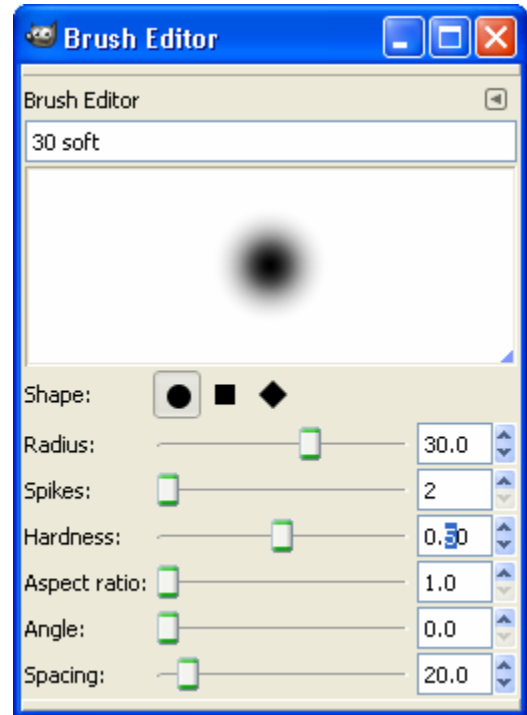

5. In the Brush editor, make a new Brushe by filling in the boxes as described below:

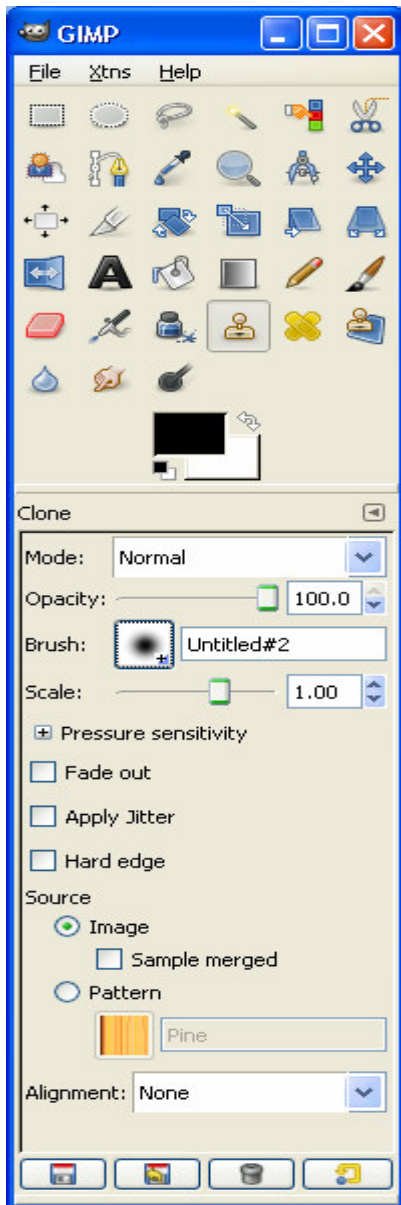

- Brush 1**      Replace the “UNTITLED” words with:  
 Title “30 Soft”  
  
 Radius TYPE “30”  
  
 Hardness TYPE “0.5”

6. To **SAVE**

Click the  to close the box

Return to the MAIN GIMP control Panel below

This version of GIMP automatically saves the brush when you close the brush editor dialog box.

The Name for the brush will be there the next time you open GIMP.

7. **REPEAT Steps 2-6.** Make several brushes. Of various size and hardness combinations.
